EDUCATION

Ateneo de Davao University	Davao City, Philippines
Bachelor of Science in Computer Engineering (On-going)	July 2023 - June 2027
- Honors: SY 2025-2026 Dean’s List, SY 2024-2025 President’s List - Completed Courses: Object-Oriented Programming, Data Structures and Algorithms, Software Design, Numerical Methods, Logic Circuits and Design, CpE Elective 2 Machine Learning, Computer Engineering Drafting and Design, CpE Elective 1 Microprocessors, Hardware Description Language.	

SKILLS

Technical Skills: C#, HTML, CSS, JavaScript, Python, ReactJS, WPF, SQL, MATLAB, Github, Raspberry Pi, EagleCAD, Arduino, Figma, TinkerCAD

Interpersonal Skills: Strong Team Leadership, Attention to Detail, Team Player, Conflict Resolution

RECOGNITION & PROJECTS

LearnM: Augmented Reality Mobile Application in Learning the Concept of Basic Biological Structures Using Blender, C# and Vuforia SDK	May 2023
Developed the Front-End and 3D modeling of the project for the final requirement in Capstone Research	
Artificial Intelligence and Machine Learning Online Workshop	May 2024
Participant: Computer Engineering Department, Ateneo de Davao University.	
Google I/O Extended Davao 2024	July 2024
Participant: Computer Engineering Department, Ateneo de Davao University.	
PC Rental System Application	August 2024
Created the entirety of the project as the final requirement for Object-Oriented Programming.	
Web Development Fundamentals: Building Your First App with ASP.NET Core Workshop	August 2024
Participant: Computer Engineering Department, Ateneo de Davao University.	
Institute of Computer Engineers of the Philippines Digital Poster Making Competition	October 2024
Champion: Institute of Computer Engineers of the Philippines (ICpEP).	
Polynomial Equations Calculator Application	December 2024
Created the entirety of the project as the final requirement for Data Structures and Algorithms.	
RCCharter Flight Management System Application Using SQL , C# and WPF	April 2025
Created the entirety of the project as the final requirement for Software Design.	
Line Following Robot Using Transistors and LDRs	May 2025
Developed the PCB layout and the hardware case as the final requirement for Electronic Circuits.	
Development of Attendance System with RFID Scanner Using ARduino Microcontroller, SQL, and C#	September 2025
Developed the front-end,UI/UX, and Database of the project as the final requirement for CpE Elective 1 partnered with the Arrupe Office	
GuideAble: Mobile Application for PWD in Davao City Prototype using Figma	November 2025
Created the entirety of the working prototype of the project as the final requirement for Technopreneurship.	
Canva Workshop at Barangay Vicente Hizon Sr., Elementary High, Davao City Teachers	December 2025
Conducted an outreach digital literacy workshop on Canva	
AI Ready ASEAN Hour of Code Training	December 2025
Participant: Computer Engineering Department, Ateneo de Davao University.	
AddU Magis Market E-commerce Webapp (On-going)	February 2026-May 2026
Currently developing the Front-End of the project spearheaded by AddU SAMAHAN SYS Development.	
Epicenter Estimation System (On-going)	February 2026-December 2026
Currently developing the Front-End and serving as the student project assistant for this project, in collaboration with PHIVOLCS and the Math Department of AddU.	

AFFILIATIONS & RELEVANT ROLES

- Executive Student Council of Engineering and Architecture - Public Relations Officer (2024 - 2025)
- SAMAHAN Systems and Development - Front-End Developer (2025 - Present)
- SAMAHAN Creative Team - Secretary-General (2025 - Present)
- Prominent Computer Engineering Students’ Organization (PROCESSOR) - 3rd Year Representative (2025 - Present), Incoming President (2025 - 2026)
- UX/UI Davao - Volunteer/Facilitator (2024 - 2025)
- ICpEP-SE Region 11 - Member (2023 - Present)
- Director for Overall Branding and Graphic Design - Ateneo First Year Onboarding 2025, Palarong Atenista. 2025 , Ateneo University Festival 2025 , Loyola Awards 2024 , Festival Of Excellence 2024 , SEA Fair 2025.
